Summary

A dedicated and ambitious Computer Science student at Zewail University, specializing in Data Science and Artificial Intelligence. I have a strong foundation in programming, data science, and AI, with a passion for building projects and learning new technologies. With over 5 years of experience in programming, I have worked with diverse teams to solve complex challenges and drive meaningful change. My approach combines strategic thinking with hands-on execution, ensuring that vision translates into tangible results. I believe in the power of collaboration and continuous learning to create impactful solutions.

Education

Zewail University of Science and Technology

Giza, Egypt

B.SC. IN COMPUTER SCIENCE

Present

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Machine Learning, Deep Learning, Artificial Intelligence, Big Data Analytics, Computer Vision.

Work Experience

Self-Employed

Remote

FREELANCE PROGRAMMER

2023 - Present

- Developed applications and software solutions tailored to client needs.
- Utilized Python and Database Management systems to build robust solutions.
- Gained hands-on experience in designing and testing software modules.
- Demonstrated strong teamwork, discipline, and communication skills while delivering projects.

Academic Projects

Database Management System

Zewail University

COURSE PROJECT

2024

- Designed and implemented a relational database schema for a management system.
- Applied normalization concepts and complex SQL queries for efficient data retrieval.

Machine Learning Model Implementation

Zewail University

COURSE PROJECT

2024

- Developed machine learning models using Python to analyze and predict patterns from datasets.
- Applied data preprocessing and visualization techniques studied in the Data Mining course.

Object-Oriented Software Application

Zewail University

COURSE PROJECT

2023

- Built a software application demonstrating core OOP principles (Inheritance, Polymorphism).
- Ensured code modularity and reusability following Software Engineering best practices.

Core Skills

AI & Data Science	Machine Learning, Deep Learning (CNNs, RNNs, Transformers), NLP, Computer Vision, Speech Recognition, XAI, MLOps, Data Mining, Big Data Analytics, ETL & Data Governance
Programming	Python, C++, OOP, Nature-Inspired Computation
CS Fundamentals	Data Structures & Algorithms, Database Systems (SQL), Software Engineering, Computer Networks & Security, Digital Logic & Architecture
Mathematics	Calculus, Linear Algebra, Probability & Statistics, Discrete Mathematics
Tools & Soft Skills	Cloud Computing, GIS, Project Management, Team Collaboration, Sustainability & Ethics, Technical English

Certificates & Achievements

2024	Advanced Track, Machine Learning & Deep Learning	Zewail University
2024	Advanced Track, Big Data Analytics & Data Mining	Zewail University
2024	Specialization, Reinforcement Learning & Computer Vision	Zewail University
2023	Coursework, Secure Computing Principles	Zewail University
2023	Language, Advanced German Level
